The French expression être en train de (pronounced eh tra(n) treh(n) deu) means "to be in the process of" or "to be doing." This little phrase when combined with an infinitive is the equivalent of the English present progressive, which French lacks. Normally, one would use the simple present in French (je parle) to express both the English simple present ("I speak") and the present progressive ("I am speaking"). When you want to insist on the ongoing, continuous nature of a current action in French, use the expression être en train de with an infinitive denoting the action. For example: Je suis en train de parler. > I am (in the process of) speaking (right now). The French equivalent of the English past progressive (I was speaking) is the imperfect: je parlais. But if you need to stress the fact that the action was continuing, use être en train de. For example: J'étais en train d'écrire ma thèse quand le tremblement de terre a frappé. > I was (in the middle of) writing my thesis when the earthquake struck. The expression être en cours de has a similar meaning, but it is passive and usually followed by a noun: La maison est en cours d'aménagement.> the house is being renovated. While the French present participle -ant can't be used to mean that one is doing something, it is equivalent to -ing in English when used as a noun or adjective. Il est en train de manger. > He's eating. se voir en train de faire quelque chose > to picture someone doing something surprendre quelqu'un en train de fairequelque chose > to catch someone doing something se voir en train de faire quelque chose > to see someone doing something Il est en train de la draguer. > He's trying to pick her up. L'eau est en train de chauffer. > The kettle's on. / The water's heating. en train de faire quelque chose >être en train de changer >être en train de faire quelquechose > in the act of doing somethingto be undergoing changeto be in the middle of doing something Expressions with êtreExpressions with enExpressions with deMost common French phrases Fresh from winning a Michelin star for chef Jean-Alexandre Ouaratta's gastronomic French cuisine, Château de Bagnols has upped its game. I flew to Paris and was wandering around the grounds of the beautiful château forty-five minutes after leaving the airport . The grounds are impressively immaculate, and the solitude is all-encompassing. I encountered only three other people during my entire walk, one of which was watering the flowers whilst singing a tune. It is the kind of place you can do that-sing your heart out and with the only audience being the standing ovation of trees ahead of you. Perfect. Château de Saint-Germain-en-Laye. Château de Saint-Germain-en-Laye is the kind of place that is wonderfully captivating from any angle. And the perfectly tremendous part is that the sheer vastness of the grounds provides a distinctly massive amount of angles to peer at the world from. While it is easy to get caught up in the fantasy of the château and feel Alice-in-Wonderland "lost," one need not look far to find a glimpse of reality through the key-hole-esque gaps between the trees that rim the grounds. Days can be spent just walking the perimeter. Don't even get me started on what happens when one enters the domain! See anything inaccurate? Let our Editors know
